

KIDSCIENCE[®]

ADVENTURES

AFTER SCHOOL SCIENCE FUN

Proctor Terrace Elementary School

Join us for a fun filled science adventure!
Kidscience is dedicated to making science fun for kids of all ages.

Using common materials, we will explore and perform a variety of amazing hands-on experiments. Session lasts six weeks—one hour each class.

Each class will be packed with science fun. Your child will experience science demonstrations, hands-on time with the experiments and make a take home science project each week.

Performing safe and fun science activities creates excitement and enthusiasm for learning as well as develops critical thinking skills.

Explore & Discover: All NEW lessons

- Make a water powered grabber hand
- Build a levitating magnetic sculpture.
- Design a Gravity powered light switch
- Amazing Optical Illusions
- **Plus other hands on science experiments**

Founder : Mark Bradski holds a credential in elementary education and is an expert in hands-on science fun. His goal for students is to instill a love of learning and the ability to solve problems with a scientific approach.
