AFTER SCHOOL SCIENCE FUN

Proctor Terrace School Science Wednesdays

Join us for a fun filled science adventure!
Kidscience is dedicated to making science fun for kids of all ages.

Using common materials, we will explore and perform a variety of amazing hands-on experiments. Session lasts six weeks—one hour each class.

Each class will be packed with science fun. Your child will experience science demonstrations, hands-on time with the experiments and make a take home science project each week.

Performing safe and fun science activities creates excitement and enthusiasm for learning as well as develops critical thinking skills.

Explore & Discover: All NEW STEM lessons

All new lessons in Motion, make a device that uses a spring powered energy to make an amazing science toy. Design a game with magnets. Experiment with chemical reactions. Build a wind mill, mini motorized floor racer. Plus other experiments to take home each week to continue exploration.

Instructor: Mark Bradski holds a credential in elementary education and is an expert in hands-on science fun. His goal for students is to instill a love of learning and the ability to solve problems with a scientific approach. He has been teaching hands-on science classes and camps for 20 years.

Grades: 1–6
Time: 1:40-2:40pm
Dates: Sept 7,14,21, Oct 5,12,19

To Register:

Email: mbradski42@gmail.com

Include your students name and grade level

A return email will confirm and include payment information.
