## ADVENTURES

### AFTER SCHOOL SCIENCE FUN

---

Proctor Terrace Science Wednesdays 4 weeks

**Join us for a fun filled science adventure!**  
Kidscience is dedicated to making science fun for kids of all ages.

Using common materials, we will explore and perform a variety of amazing hands-on experiments. Session lasts six weeks—one hour each class.

Each class will be packed with science fun. Your child will experience science demonstrations, hands-on time with the experiments and make a take home science project each week.

Performing safe and fun science activities creates excitement and enthusiasm for learning as well as develops critical thinking skills.

**Explore & Discover: All NEW STEM lessons**

All new lessons in Motion, make a mini zip line raceway, design a game with magnets. Make an electric buzzer circuit game, and a gravity powered toy. Plus other experiments to take home each week to continue exploration.

**Instructor:** Mark Bradski holds a credential in elementary education and is an expert in hands-on science fun. His goal for students is to instill a love of learning and the ability to solve problems with a scientific approach. He has been teaching hands-on science classes and camps for over 20 years.

Grades: 1–6  
Time: 1:40-2:40pm  
Dates: Nov 9,16, Dec 7,14 no class nov 30  
Location: Mrs Forrest's Room 21
